Product Design, UX Research & Strategy

Product and UX Designer with a strategy and research mindset and hands-on **B2B SaaS** experience. I turn business problems into clear product experiences that lift **conversion, engagement and operational efficiency**, and I keep users, stakeholders and engineering aligned along the way. I design **outcomes**, not just interfaces. I **manage projects, teams and product roadmaps** end to end, from discovery and planning to delivery and iteration.

Skills

Product Design, **Product Strategy and Roadmapping**, **UX Research** (qualitative and quantitative), Journey Mapping and Service Blueprinting, Information Architecture, Wireframing and Prototyping, Usability Testing, **Design Systems**, Accessibility (WCAG), **Business Strategy** and Value Proposition Design, GTM/TAM/SAM/SOM, OKR and KPI Frameworks, **CRO and A/B Testing**, Funnel and Retention Design, Behavioral Design, Workflow and Systems Design, **Stakeholder Management**, Design Thinking Workshops. **Assisted in Project Management as well:** scope and requirement definition, planning and prioritization, **Agile/Scrum** delivery, sprint and timeline tracking, risk and dependency management, cross-functional coordination, **team leadership and mentoring**, and progress reporting against business KPIs.

Technical Skills

Design and Research: Figma, Framer, Spline, Adobe Suite, Maze, UserTesting, Google Analytics. **AI-Assisted Development:** AI-assisted development and prototyping with **Claude, ChatGPT, Gemini and DeepSeek**, working with AI model APIs. **Frontend and Tools:** HTML, CSS, JavaScript, **React**, Next.js, TypeScript, Tailwind CSS (working knowledge), SQL and Python (basics). **Project and Product Management: Jira**, Notion, Miro, Agile/Scrum boards, sprint planning, roadmapping and progress tracking.

Experience

Senior UI/UX Designer [November 2025] – [present]
[Mushroom World Group Pvt. Ltd.] *[Bhopal, Madhya Pradesh, India]*

- Lead end-to-end **product and UX strategy** (research, journey mapping, design, testing) and shape **roadmaps** across **B2B SaaS** products such as Algae Tree, Canact and 3D hologram models
- Own the **design system**, managed designers, and run **design thinking workshops**; manage teams, projects and stakeholders on major initiatives
- Align UX with **business KPIs/OKRs** using interviews, surveys, **A/B tests** and analytics, driving gains in engagement and conversion

UI Designer and Developer [January 2025] – [August 2025]
[Total Project Solutions] *[Indore, Madhya Pradesh, India]*

- Designed and built **accessible, responsive UIs** (HTML, CSS, JS, React) from Figma, using **AI-assisted coding** to cut dev time by **25 to 30%**
- Kept design and dev aligned through **reusable components** and design tokens

Interaction Designer [May 2024] – [January 2025]
[SRI SAI STUDIOS] *[Bhopal, Madhya Pradesh, India]*

- Designed **interaction flows, wireframes and Figma prototypes**, validating ideas early to reduce development rework
- Ran **usability tests** and restructured **information architecture**, improving task completion and reducing drop-off; collaborated with product and engineering via a shared **design system**

Sales and Operations Associate & Researcher [November 2023] – [March 2024]
[Brand Ventor Pvt. Ltd.] *[Bhopal, Madhya Pradesh, India]*

- Conducted **user and workflow research** and journey mapping, applying Agile/Scrum methods to remove pipeline bottlenecks and cut turnaround time by **15%**
- Documented **standard workflows**, used CRM data to prioritize fixes, and facilitated **stakeholder workshops**

Projects

- **CANACT (Social Connectivity App):** Designed in Figma with user flows, knowledge graph and architecture; defined **GTM, TAM, SAM, SOM** for launch.
- **Aarthik (Financial planning app):** Money management app focused on helping users **use money better**, beyond tracking; helps people across all the methods they recieve money in.
- **LogiFlow (B2B SaaS, AI Logistics Dashboard):** 20+ modules (shipment tracking, fleet, GST billing, compliance, warehouse) with live GPS fleet monitoring; designed in Figma, built with Next.js, React, TypeScript, Tailwind, shadcn/ui.
- **Teamio (B2B SaaS, HRMS):** Cohesive design system and secure auth flows across employee directory, attendance, leave, payroll, audit logs and settings.
- **NorthStar (B2B SaaS, BI & Financial Planning):** Executive command centre with revenue, cash flow and unit-economics dashboards, live calculators (CAC/LTV, break-even, runway), KPI comparisons and drill-downs.
- **Aangan (E- commerce App):** Built Aangan, a responsive furniture shopping experience that turns “Will it fit?” into confidence through interactive room planning, lighting previews, and seamless cart animations..
